Why Stellar?

Stellar is the only data recovery company worldwide with over 18 years of combined experience in services and software. Stellar has its own laboratories worldwide for data recovery services and for developing data recovery tools. Stellar is close to you. The central European laboratory of Stellar is based in the Netherlands. Stellar specialists deal with all kinds of real-life data recovery problems on a daily basis. Stellar Data Recovery has an extensive network of partners all over Europe. Our account managers will gladly assist you.

Advantages of the partnership

- Your own specialist one phone call away
- No data, no charge policy
- Free shipping
- Always Priority Service for partners
- Strongly reduced diagnosis costs
- Both direct and indirect referrals count for you
- Professional partner commissions
- 24/7 Online access to your cases
- Reduction on all data recovery software tools

Stellar as Partner in your Value Chain

Process

Step 1: Free case consultations

You receive free consults on all your cases.

Step 2: Thorough Diagnosis

The thorough and in-depth laboratory analysis results in the Diagnostic Report and includes the complete list of files that can be recovered from the device. You can present these results to your customer.

Step 3: Priority Data Recovery

After acceptance, Stellar Data Recovery experts ensure a fast, efficient and secure recovery of your data with minimum turnaround time along with the highest degree of data integrity and confidentiality. Your customer's data is back.
