Stellar RAID Recovery Services

Things can turn messy when redundancy fails. Stellar helps you out fast and securely with premium class RAID Recovery Services. Stellar's services are backed by international teams of RAID experts and R&D specialists. Stellar has developed a wide range of proprietary recovery tools and possesses state-of-the-art class100/ISO-5 laboratories. Stellar ensures fast and timely data recovery from all RAID levels and configurations along with the highest degree of data confidentiality.

The world's leading data recovery company

Worldwide with strong presence in Europe, the US and Asia

State-of-the-art technology

Present in 10 European countries

Recoverable RAID levels

RAID 0
RAID 1
RAID 3
RAID 4

RAID 0+1
RAID 10
RAID 5
RAID 5E

RAID 5EE
RAID 1E
RAID 50
RAID 51

RAID 6
RAID ADG
RAID_dp
RAID Z

What is RAID?

A RAID is an innovative technology to construct a single fault tolerant server system by taking multiple hard drives together. Inside the RAID, data is distributed across different drives in a unique pattern. A RAID offers safe and systematic means of storing huge volumes of data. Lack of proper strategic maintenance or wear and tear of drives usually lead to instances of RAID failure.

Common causes that lead to RAID failure

- RAID controller failure
- Corruption or overwriting of the RAID configuration
- RAID array failure
- Hardware failure due to any reason
- Intermittent drive failure & rebuild failure
- Corruption in the file system / OS

Process

Step 1: Consultation

Our consultation on your crashed RAID server free of cost.

Step 2: Thorough Analysis

The accessible drives are cloned and the inaccessible drives are treated in a class 100/ISO-5 cleanroom. A thorough and in-depth laboratory analysis follows resulting in the Analysis Report including the complete list of files to be recovered.

Step 3: Data Recovery

After acceptance, Stellar Data Recovery experts ensure a fast, efficient and secure recovery of your data with minimum turnaround time along with the highest degree of data integrity and confidentiality. You are back in business.

The Industry's Best **DATA RECOVERY** Solution Provider since 1993

Laboratories in **EUROPE | US | ASIA**

100% transparent process

STATE OF THE ART Technology Labs (ISO 5/Class 100 cleanrooms)

Team of Specialised Data Recovery and **R&D EXPERTS**

ASSURES 100% CONFIDENTIALITY of data

No Data **NO CHARGE POLICY**

ISO 9001:2008 certified

Over 1 million satisfied customers

“Bij deze wil ik u op persoonlijke titel nogmaals bedanken voor de aangename en heldere communicatie vanuit uw kant tijdens de recovery werkzaamheden betreffende jobnr 021899. Tevens wil ik uw specialisten afdeling bedanken voor de hoge recovery percentage die behaald is. Maar liefst 95% is teruggehaald. En 100% van mijn matlabcode is terug. Daar ben ik erg blij mee. Hoe paradoxaal het ook klinkt hoop ik nooit meer iets met u te maken te hebben... Maar mocht onverhoopt weer iets binnen onze afdeling crashen dan weet ik u te vinden.”

Taufik Bakri, TNO Nederland
